

## MAGNET REFLECTOR

Magnet reflectors are a convenient and effortless way to add reflection to any item of clothing or item. Strong magnetic ends provide a secure bond to whatever you're wearing.

Also Used for fixing pilot ladders to the ship. It prevents shaking.

### Installation

1. Place Safety Magnet MT500 on each side equal to the pilot ladder. Make sure the handle heads to sky.
2. Pull the handle of the magnet down to the pilot vessel, make sure the magnet is secured to surface.
3. Fix magnet locker to the pilot ladder by using the supplied sling, both left and right.

### How to remove

1. Remove slings, ropes first for the handle can head up.
2. Locker can be removed now.
